Date 3/1/18

**** Service delays expected due to winter weather conditions****

Attention Valued Customers:

Please be advised that line haul services are subject to delay due to prevailing winter weather conditions throughout the country. Specifically affected are northern route trucks with stops in DEN, SLC, SMF, and SFO. Delays are expected starting tonight through this weekend and will affect arrival times on Monday 3/5/18.

Service delays are also expected to affect EWR/JFK/PHL operations due to the Nor Easter expected to pass through our area with periods of heavy rain and high winds all day Friday 3/2/18 and some areas north and west of NYC expected to receive significant snow totals.

Updates for the progress of the storms in Northern California can be viewed here:
